Input utterance

Joey: Let's get that ball and really move, hey, hey, ho, ho.

Instruction

Now you're an expert at emotion analysis. Select an emotion label for the question based on the following conversation content and context information. Pay attention to the context of the conversation and the mood of the punctuation at the end of the sentence. Context is the mood of the conversation similar to my question. You can choose whether to refer to context or not.

Conversation

Joey: Come on, Lydia, you can do it.

Joey: Push 'em out, push 'em out, harder, harder.

Lydia: Push 'em out, push 'em out, way out!

Joey: Let's get that ball and really move, hey, hey, ho, ho.

...

Joey: Push!

Label Statement

Emotion label selection: < joy, surprise, sadness, neutral, anger, disgust, fear>.

Only the label needs to be included in the answer.
